

Integrapak is a modern agency company staffed by experienced, multi-lingual professionals that represents a number of high quality, packaging machinery manufacturers.

In addition to its sales office, Integrapak offers a fast responsive engineering back up service, flexible maintenance schemes and an extensive stock of replacement parts and spares.

- Net weigh liquid filling machines.
- Rotary capping machines.
- Rotary labeling machines.
- End of line case-packers.
- Compact, cartesian & robot palletisers.
- Filling machines for pre-made and stand-up pouches.
- Multi-lane stick pack machines with dosing systems for dry, liquid, dairy, pharmaceutical and wet wipe applications.
- Tailor-made horizontal flow-wrapping machines and automatic feeding systems.
- Automatic stretch wrappers for palletised loads including turn-table, rotating arm and rotating ring machines.
- Horizontal form-fill seal, sachet and stand-up pouch machines.
- Vertical baggers.
- Cartoners & case-packers.
- Multi-lane, 3 and 4 side seal sachet machines for liquid and bulk liquid bags.

After Sales Support

- Service and Internal Engineering Support.
- Tailored training packages.
- Equipment inspections.
- Spare parts, tooling and change parts.
- Line installations and machine moves.
